

GIS COORDINATOR

ST. JOHN'S – CLOSING DATE: MAY 4, 2018

COMPETITION NUMBER: NPJP-2018-14341

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Team, you will play an integral role in supporting the development, maintenance and use of Geographic Information System (GIS) technology. Your key responsibilities include: updating GIS to reflect ongoing changes to the electrical system; conducting audits, as built verifications in the field, and other checks to ensure the currency, completeness and accuracy of GIS data; performing GIS analysis and reporting; providing GIS user training and support; and, assisting with GIS system enhancements.

Your qualifications include graduation from a two year technical program with course work in GIS. Previous working knowledge of ESRI GIS Technology and familiarity with electrical transmission and distribution system components are definite assets. An equivalent combination of education and experience will be considered. You must possess strong computer skills and be able to execute technical tasks with precise attention to detail. Excellent planning and organizational skills are essential to the position.

Apply online at newfoundlandpower.com/en/About-Us/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
