

ELECTRICAL ENGINEER

ST. JOHN'S – CLOSING DATE: MAY 28, 2018

COMPETITION NUMBER: NPJP-2018-16360

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Planning and Standards Team, you will be responsible for providing engineering services and technical support for the Company's electrical distribution system. You will provide assistance and support to design engineers, technologists and field personnel in the construction and maintenance of overhead and underground distribution assets. You will also review and evaluate new industry trends, products and processes to improve the performance of the electrical system.

Your qualifications include a Bachelor's degree in Engineering (Electrical). You have strong planning, analytical, organizational and communication skills and have the ability to work in a team environment as well as on your own. You are proficient in the use of Microsoft products and are familiar with AutoCAD software. You must hold and maintain a valid driver's license.

Apply online at newfoundlandpower.com/en/About-Us/Careers/Career-Opportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
