We'll be there.

POWERLINE TECHNICIAN

CARBONEAR – CLOSING DATE: JULY 4, 2018
NPJP-2018-17106

ARE YOU READY TO TAKE ON THE NEXT CHALLENGE IN YOUR CAREER AT NEWFOUNDLAND POWER? You might be the person we're looking for to be a **POWERLINE TECHNICIAN** with our **EASTERN REGION TEAM**.

As a valued member of our Operations team, you will be responsible for installing and maintaining energized and de-energized power lines at various voltages; interpreting single line drawings and specifications; inspecting and maintaining tools, equipment, and vehicles used to carry out line work; and performing other duties related to this position.

Your qualifications include a Powerline Technician Operating Red Seal Certificate and a valid class 3 motor vehicle drivers' license with air brake endorsement. You have demonstrated an excellent knowledge and solid understanding of the Company's safety procedures, standards and work methods. As well, you are a highly motivated team player who consistently displays initiative and productivity in your job duties.

There is a residency requirement for this position and compensation is per the current Collective Agreement.

You are a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills. You must possess strong computer skills and be able to execute technical tasks with precise attention to detail. Excellent planning and organizational skills are essential to the position.

Employees interested in this position should submit their resume via email to careers@newfoundlandpower.com
