

TEAM LEAD, IT SOLUTIONS DELIVERY

ST. JOHN'S – CLOSING DATE: JANUARY 19, 2018

COMPETITION NUMBER: NPJP-2018-13710

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of our Technology Team, you will be responsible for leading and motivating a team of information technology (IT) professionals through the lifecycle of IT projects. Your responsibilities will include developing an agile systems development methodology to improve project execution excellence; assisting with business case development for technology investments; and maintaining a deep understanding of current and emerging enterprise technologies. In this role, you will be required to develop and manage project plans including budgets, resources, timelines and communications, and assist in the development of annual capital and operating budgets. You will help ensure technology solutions are well architected, and lead the effective transition from systems delivery to daily operations. This includes confirming all documentation is completed and associated training is delivered.

Your qualifications include a university degree or college diploma in Information Technology. This will be supplemented by 10 years' experience in enterprise software delivery, and a minimum of 3 years project management experience focusing on agile project management and software delivery methodologies. You must have demonstrated success in leading and managing multiple projects and teams. You must display strong analytical, people management, coaching and communication skills, and thrive in a team environment.
