

ENGINEERING TECHNOLOGIST (TEMPORARY)

ST. JOHN'S – CLOSING DATE: FEBRUARY 28, 2018

COMPETITION NUMBER: NPJP-2018-14333

Are you ready to explore an exciting career in a fast-paced, high-performance environment?

If you are seeking a challenging and rewarding career with room for continuous advancement and a competitive compensation package, have we got an opportunity for you! We are looking for a highly motivated team player with a strong commitment to safety and customer service, an excellent work ethic, and effective interpersonal and communication skills.

As a valued member of the Utility Services Team you will be responsible for: designing and managing overhead and underground line construction to support Newfoundland Power's joint-use partners; providing technical leadership to construction crews and contractors; interacting with joint-use partners, councils and other regulatory bodies; preparing estimates and material lists for job preparation; and, assisting with the design and execution of other distribution engineering projects as required.

Qualifications include a diploma in Electrical or Civil Engineering Technology. You must hold and maintain a valid motor vehicle driver's license. Proficiency with computer-based programs such as the Microsoft Office applications and AutoCAD is necessary. You have excellent planning and organizational skills. There is a residency requirement for this position, whereby your primary residence must be within 40 kilometres of the Duffy Place office. Travelling will be required at times for this position.

Apply online at newfoundlandpower.com/Careers/CareerOpportunities. We thank all applicants for their interest but only those selected for an interview will be contacted.

WHENEVER. WHEREVER.
We'll be there.
